Solution: Break, Continue

Quiz Solution: Break the String

Here's one way you could do this.

```python
headlines = ["Local Bear Eaten by Man",
             "Legislature Announces New Laws",
             "Peasant Discovers Violence Inherent in System",
             "Cat Rescues Fireman Stuck in Tree",
             "Brave Knight Runs Away",
             "Papperbok Review: Totally Triffic"]

news_ticker = ""
for headline in headlines:
    news_ticker += headline + " "
    if len(news_ticker) >= 140:
        news_ticker = news_ticker[:140]
        break

print(news_ticker)
```

Output:

```
Local Bear Eaten by Man Legislature Announces New Laws Peasant Discovers Violence Inhe
rent in System Cat Rescues Fireman Stuck in Tree Brave
```

NEXT

Solution: Break, Continue
